TECHNICAL SKILLS

Languages: Data Structures and Algorithms (Java), Python.

Frontend: HTML, CSS, JavaScript, React.js, Next.js, Bootstrap, Tailwind CSS.

Backend Framework & Databases: Node.js, Express.js, MySQL, MongoDB.

Developer Tools: VS Code, Git, GitHub, Postman, IntelliJ, Android Studio.

Computer Science Fundamental: Object Oriented Programming, DBMS, OS, Computer Networks.

EDUCATION

B.Tech, CSE | IK Gujral Punjab Technical University Main Campus Jalandhar, Kapurthala

2024 – Present | CGPA: 6.9

DIPLOMA IN COMPUTER ENGINEERING | Nowgong Polytechnic Nagaon, Assam

CGPA: 8.5 | 2021-2024

PROJECTS

1. Socially – Full-Stack Social Media Platform

I built Socially, a production-ready full-stack social media application that enables users to connect, share posts, like, and comment in a secure and scalable environment.

Key Features:

- Secure user authentication and authorization using JWT and bcrypt
- Create, like, and comment on posts with real-time UI updates
- Media upload functionality using Multer
- Fully responsive modern UI with Tailwind CSS
- Optimized global state management using Redux Toolkit
- RESTful API architecture with Express.js and MongoDB

Tech Stack:

Next.js 16, React 19, Redux Toolkit, Node.js, Express.js, MongoDB, Tailwind CSS, REST APIs

Highlights:

- Built scalable frontend using Next.js with optimized rendering
- Designed modular backend with secure and efficient database handling
- Implemented clean architecture and best practices used in production systems

2. Vionex – Real-Time Video Conferencing Platform

Tech Stack: React.js, Node.js, Express.js, Socket.IO, WebRTC, MongoDB

- Designed and deployed Vionex, a full-stack real-time video conferencing web application enabling crystal-clear video and seamless virtual meetings.
- Implemented WebRTC-based peer-to-peer video/audio streaming with low latency and optimized bandwidth usage.
- Integrated Socket.IO for real-time signaling, chat messaging, and live room management.
- Developed secure and scalable backend APIs using Node.js and Express.js with MongoDB for user and session data management.
- Focused on performance optimization, modular architecture, and clean code practices to ensure scalability and maintainability.
- Built a responsive, user-centric UI using React.js to enhance cross-device compatibility and user experience.
- Implemented features such as meeting rooms, user authentication, real-time chat, and dynamic participant controls.

2. StayMark – Smart Booking & Property Management Platform

Tech Stack: Node.js, Express.js, EJS, MongoDB, JWT/Session Auth, Bootstrap/CSS

- Engineered a scalable booking web application supporting property listing.
- Designed role-based access control enabling hosts to manage properties and guests to book stays securely.
- Optimized backend routing and MongoDB queries reducing response time by 25%.
- Focused on clean MVC architecture, modular code structure, and maintainable backend design.

EXPERIENCE

Freelance Full-Stack Developer | Self-employed – Remote

Dec 2022(6 Months)

- Developed a responsive tourism website using WordPress, integrating booking forms and dynamic destination listings
- Improved user engagement through optimized UI/UX and mobile responsiveness
- Implemented SEO best practices increasing organic reach

ACHIEVEMENTS & CERTIFICATIONS

Winner – 2nd Position in Declamation Competition(2025):

Secured 2nd position in an inter-college declamation contest, showcasing strong public speaking and articulation skills organized by NSS Wing of IKG PTU.

PSB Hackathon – Participation & Award Certification

Punjab & Sind Bank Hackathon | 2026

- Participated in a national-level hackathon focused on solving real-world fintech challenges.
- Collaborated with a team to design and develop an innovative technical solution using modern web technologies.
- Received official participation and award certification for performance and innovation.

Project Competition Winner – ISTE Student Convention

Organized by Indian Society for Technical Education (ISTE) | 2025

- Won 1st place for developing “Find Your Driver”, an innovative platform to connect users with nearby verified drivers.
- Designed and presented a real-world mobility solution focusing on accessibility, safety, and efficient driver discovery.
- Recognized for innovation, technical implementation, and practical problem-solving.

POSITION OF RESPONSIBILITY

Former General Secretary | NPSU, Nowgong Polytechnic 2023-2024

- Led student initiatives, managed events, and coordinated communication between students and administration.
- Coordinated campus placement activities, assisted students with recruitment preparation by supporting the Training & Placement Cell.
- Represented student body interests and facilitated cultural, technical and welfare programs for the institute.
